

VAM® Licensee In Ghana

June 2012

AOS Ghana Ltd has been licensed by VAM® Services and has already been qualified to machine the following VAM® premium connections: VAM® TOP, DINO VAM® and VAM® EIS.

AOS Orwell is therefore capable to repair full length pipes and to manufacture accessories fitted with VAM® connections in Ghana. Both VAM® OCTG and VAM® Drilling product lines are supported by AOS. The AOS workshop is located in Takoradi, the Oil & Gas hub in Ghana.

AOS is equipped with 2 CNC lathes, a phosphating unit, a copper plating unit and a make-up unit. They have a capacity to machine connections up to 14". The AOS local staff (15 people) has received a technical training related to machining, gauging, surface treatment and make-up operation to ensure the quality to the customer. As a VAM® Licensee, AOS has access to the VAM® documentation and VAM® gauges in order to ensure a reactive and efficient service to the Oil and Gas companies operating in Ghana. AOS will be audited by VAM® Services every year.
