

VALLOUREC & MANNESMANN TUBES

Name change of SEA VAM® TTR: SEA VAM® TTR becomes VAM® TTR

VALLOUREC & MANNESMANN TUBES (V & M TUBES) has been supplying SEA VAM® TTR, a threaded and coupled connection for Top Tensioned Riser (TTR) applications since 2005. In order to standardize the product branding of all products within the VAM® RISER family, V & M TUBES has decided to change the name of the existing product: SEA VAM® TTR becomes VAM® TTR. Product logo:

Please note that the name change does not affect any design feature or performance rating of the product. Drawings are the same – only Product Name and revision number changed! All technical documentation have been updated.
